Dear Host Family,

We are a "normal" family of 5 people, mom, dad (married for over 20 years) with 3 children. I have two older siblings, one sister 19 years old and one brother 17 years old. Both are trainees, my sister will be a pastry chef and my brother will be an industrial mechanic. We don't have any pets.

We live in a house in a small town with about 25,000 inhabitants, it is a typical German town, with a few shops, supermarkets, swimming pool, tennis, football, sports clubs, etc. Most people who live here have to go to the surrounding areas to work drive to larger cities.

I do sport regular and I would also describe doing sports as one of my hobbies especially playing Basketball, and Volleyball as those are the sports I play the most and also I play them with my friends alot if its just for fun or in an actual Team. Another hobby of mine is driving with my bike although I dont it as regular as I do sports I still like it a lot as I get to go out into the natur and just dont think about anything really. In School I am decent I am not the best in the class but im also a bit above averge especially when it comes to natural sciences as its the subject I am most interested in and I hope I can do as my future Job.

I do have a good relation with everyone in my family and dont have any problem or conflict with any of my siblings/parents or other people of my family. I would like to attend the program because I would love to learn about the diffrences of the countries in the daily life but also how the diffrences in ways of teaching are and the content in the school year itself. I would bring the german culture with to my host family and hopefully a good time alltogether and I hope to learn about the local culture. I think you should choose me as I think i would be a great addition to your family and we would have a great time and we would be exchanging cultures

I am looking forward to meet you!

Kind regards,

Jannis
