Lär känna Luca

Luca är född 2008 och kommer från Italien. Han kommer i augusti 2024 och stannar under ett läsår. Intressen är bl. a sociala aktiviteter, böcker, basket, cykling och sällskapsspel. Hans favoritämnen i skolan är matematik och datavetenskap.

Hi there, I'm Luca!

I'm very curious about what sorrounds me: I love reading books about any topic, from essays to sci fi books. I like watching documentaries (especially about travels and science), movies, videos on the internet and listening to music.

I live with my mom, my little brother (he's just 3!) and my aunt. My dad no longer lives with me but I meet him about three or four days a week, as I do with my grandparents. I love my family very much! I usually help my mom and aunt with the housework and we collaborate in taking care of my little brother too: he's lovely but also very lively! I usually talk to my dad about everything very much; he has a lot of patience and I find very useful to confront with him. My grandparents (from father's side) love me so much: they always do anything for me.

I love to make friends and spend time with them, although I can seem a bit timid when meeting someone for the first time! I find spending time with friends one of the best ways for using your free time. I like camping, riding my bike, playing board or video games and hanging out with them.

I attend a Computer Science oriented school: I find math and coding interesting and relaxing like building a miniature.

I found out there was the possibility of going a year abroad two years ago, and now that I'm old enough to do it I can't wait to go! I've always been so much interested in knowing different cultures: meeting a foreigner and talking with him makes my day! During the next year I hope I'll learn about knowing myself better and appreciate the little things more.

Thank you so much for reading this, hope we'll see soon!

Sincerely,

Luca
