Dear host family,

my name is Giulia, I'm 16. i was born in a town in the South of Italy, but i have Chinese origins. I would like to express how grateful I am to be able to write you a letter and introduce myself. My family is quite big, we are 6 in total: my mother, my father, my two sisters, my brother and me. We also have a cat, her name is Lola and she is 3 years old.

My family and I love traveling, we always go on holiday during Easter break, usually to other european countries. Every two years, we also go to visit my grandmother in China. I study languages at school: English, Italian, Spanish and French (and Mandarin Chinese with a private teacher) in addition to the other standard subjects (such as maths, literature, science and so on).

Italy is lovely. even in winter, we see the sun a lot. In summer, me and my friends always go to the beach together. However, after living here for so many years, I wanted a change of scenery. I had always been curious as to how people in the North of Europe lived, and I'm aware it might be a drastic change, but I wanted to experience it myself. I'm up for the challenge!

In my free time I like listening to music, watching tv shows on netflix or going to the cinema. I take singing and hip hop classes, play tennis and I'm part of my school's drama club. These activities, along with my homework, keep me busy for the week, and do not allow me to meet my friends as often as I would want to. So on saturdays, I usually hang out with them.

An Exchange is bound to be a life-changing experience. I would love to learn about new cultures, foods, customs, and even teach other people my own. But most importantly, I would like to grow as a person and make long-lasting friendships.

I'm looking forward to becoming a member of your family, and getting to know you. Thank you for allowing my dream of being an exchange student come true. Best regards,

Giulia
