homorous. She is part of our schools
first aid club."**

Lär känna Sunì

Sunì är född 2008 och kommer från Tyskland. Hon kommer i augusti 2025 och stannar under en termin. Intressen är bl. a tennis, gymträning, böcker, shopping, mode, matlagning och bakning. Hennes favoritämnen i skolan är idrott, bild och geografi.

Dear Hostfamily,

First I wanna thank you that you are going to accept me as a new family member into your home for this time. I'm so happy about this! A few years ago my love for Sweden has started... I don't know why and how because I never was there before, but somehow I had a connection with it. The years after I went there two times for holiday. The first time we were in a house near Vetlanda in Småland and the second time we were in Stockholm. Both times were so great and my love got bigger and bigger. I started learning Swedish and already tried to find a way how I could spend a longer time there, to get to know culture, nature and the people better and improve my Swedish skills, but I didn't want to wait till I finished school... that's why I wanted to do an exchange year. I live together with my mom and our two cats (Lily and Luno) in a house in the middle of the green on the edge of the city. I love this because on the one hand you can enjoy the nature, but on the other hand you are also super fast in the city to go shopping, drink a coffee or something like that. With my mom I have a very good relationship, we can talk about everything and understand each other not only as mother and daughter well, but also friendly. I appreciate that very much! We eat together most of the times or watch movies and series together. In the household I help from time to time. I clean the dishes, empty the dishwasher, vacuum the house or clean the mirrors. My dad lives ca. 5min by car away from us so I could see him every time I want to. He has a dog named Iggy. With the rest of my family: grandmas, grandpas, uncles, aunts and cousins, I really like to play board games, talk about life, do something, cook or eat together or just being in each others company. My friends are like family too. We are a group with girls and boys and always have fun together. We go to eat something together, cook, barbecue, are outside or at someone's house or just talk. I have a best friend (Caro) who lives on the other side of the field, so we only have to walk two minutes to be around each others house. In addition to meeting my friends, I also like to do sports regularly. I love the feeling of being exhausted and when you have set yourself a goal and then achieve it. Sport helps me to be more focused and to feel more comfortable in myself.

I also like listening to music, but I don't have a special music taste, what I don't like at all is heavy metal, rock and punk. To calm down and bring me down I always listen to radio plays. I also like to read, but what I think I like the most and where much of my time goes into, is my appearance. I love to go shopping, buy new clothes/ things and to look for nice outfits, doing my hair and my make-up. I would say, in new environments and with new people I'm shy and a bit introverted because I don't want that the people think bad of me or say something stupid about me, but if I have already become a bit warm with the environment and the people, I'm super talkative, open and funny. My shyness has also improved in recent years, but I am always careful. I am also a very helpful and empathetic person and always have an open ear and a good advice when someone feels bad. You can still have a lot of fun with me and I'm always ready to try new things.

In addition to school, friends and family, I work in the center of culture of my dad. This work helped me to become more open to people. Sometimes I also babysit my cousins or children of family friends. I totally enjoy that too. At school I was part of the first-aid team and can thus the basic knowledge of first aid. In school I'm an average student, so neither bad nor good.

I'm so exited to meet you and hope we can have a great time together with many memories to remember.

Warm regards
Sunì
