

"Hayden has represented the school in a number of sport events, always demonstrating maturity and responsibility."

Lär känna Hayden

Hayden är född 2009 och kommer från Australien. Han kommer i januari 2026 och stannar under en termin. Intressen är bl. a basket, djur, kreativa aktiviteter, matlagning och bakning.

To my future host family

Hello, my name is Hayden. I am 15 years old turning 16 in October 2025. I am the only son to my parents Tim and Nicole. I have a sister Lara who is turning 18 in a month and twin 7 year old sisters named Indigo and Scarlett. They definitely run our household but we wouldn't have it any other way. Life would otherwise be boring.

My family and I are very close we spend a lot of time together working around our land, doing chores, attending sporting events, camping and swimming. We live near the most beautiful beaches in Australia.

I feel lucky to have my family and the land that we live on and all the scenic areas nearby. We are just a normal family going to school, working, catching up on life and love to watch a good movie together.

I had the idea of going on exchange not long ago. I just felt like I needed an adventure, a story and an unforgettable experience. Making new friends in another country. I think Sweden caught my eye because of the scenery, the long dark days and short moments of sunlight, that would be pretty cool. I am interested in getting to know what my host family like to do, the Swedish food, culture and especially the school education.

I play a lot of sports. I am part of a Rugby League team but also ride in motocross events. I like to get involved and I will do my best to get involved in school sport if possible. I have a great group of friends, we have all known and stayed friends since kindergarten. We are that close our parents also went to school together. We are from a small town and close community.

I work at my local supermarket after school and on weekends and have been saving for this exchange to help my parents in the small way that I can. As I am very thankful to them.

My teachers have been proud of the progress I have had in the last couple of months and have moved me up a class seems I have been prioritising my studies and staying focused.

I have a never give up attitude and I hope this exchange happens because I feel like I would fit into any family as I can make the most of any situation with a fun positive attitude.

I am polite and will respect my hosts home. Listen, learn and be thankful for you allowing me into your family life. I will embrace the language while I am already practising. This exchange will give me a new view of the world and may also give me the connections and personal growth to figure out what to do after I graduate in 2027.

I can't wait to immerse myself into the Swedish way of life.

Thank you for your time.

Hayden
