

"Jessica has excellent social interaction skills with peers, teachers and in the community."

Lär känna Jessica

Jessica är född 2008 och kommer från Australien. Hon kommer i januari 2026 och stannar under en termin. Intressen är bl. a basket, djur, kreativa aktiviteter, matlagning och bakning.

To my host family

My name is Jessica and will be 17 years old whilst staying with you. I live in Australia and am currently in year 12. At my school I am the schools sustainability and environment captain. At school I take 5 classes, I take english, religion which we are studying ethics, human biology, global studies (politics), and my favourite class, modern history. I really love history and learning about where our world came from and the big events that led us to where we are. I really love my school environment and enjoy being in the classroom learning.

At home I live with my mum and younger brother, Connor who is 15. We have 2 dogs, a golden retriever, poodle mix named Molly, she is 9 years old. We have a border collie, poodle mix named Lexi, she is 4 years old. We also have 2 cats. My cat is grey with big green eyes, I named her Eeyore, she is very shy and only likes and cuddles me. Our other cat is Connors cat Timmy. He is a tuxedo cat, who is very socialable and loves people. I also babysit 3 dogs, for a family friend who lives around the corner. They are all golden retriever poodle mixes. The first one is Cubbie, who is 4 years old. The other 2 are sisters, called Tallulah and Tuesday. They spend the days at our house with our 2 dogs.

I currently have another job as a party host at Zone bowling, Timezone. This is a company operating in Oceania and South East Asia. Zone Bowling is the bowling alley and Timezone is an arcade, where I work has both facilities in one building. At my job I take the kids bowling, then play with them in the arcade, before giving them their lunch in the party room and saying goodbye. I really love this job as it is lots of fun and everyone I work with is fun to talk to.

I play Basketball, and currently play for a junior team and a senior team. I train 1x a week and play 2x a week. I hope during the winter season I could also play for another club and play 3x a week and train 2x a week. I love the sport and have been playing since 2015. I am a really good shooter, and rebounder as I am quite tall. I love my team a lot as we all really gel well together and we are all really good friends. I did play netball for a year back in late 2022-2023, I do miss playing the sport as I liked its similarities to basketball. I did use to dance and did a sport called calisthenics. This was a mix of different dance types using different props. I did this for 7 years.

I also really enjoy arts and crafts, mum and I go to a class at Bunnings a hardware store 2x a week, where we do different types of arts, from painting, to clay modelling and fabric crafts. I enjoy being creative and making my own things. I have done much travel over my years. In 2016 I went to Hong Kong, In 2019 I went to India and Singapore, in 2023 I my family did a big Europe trip starting in London (my favourite city in the world), going to France, Germany, Czechia, Austria, Switzerland, Italy and the Vatican. And in 2024, we went to Vietnam and Cambodia. Mum really loves to travel and I do as well.

I want to do an exchange program to experience life in a different culture, and see what life is like in other parts of the world. When I was in Europe I loved being able to experience the lifestyle there, but I want to experience it as a local and not as a tourist. I want to be an exchange student to learn about another culture, the customs and the diversity.

Thankyou so much for reading this and considering me as a host student

Jess :)
