Dear host family,

I am keen to learn your language for my exchange to Sweden, however, I haven't yet and so I write in English hoping you can translate or understand.

I want to study in Sweden to experience a different school culture and way of learning. I am enjoy studying business, textiles and photography and hope to one day start my own clothing brand. I would be keen to explore these subjects also in Sweden.

I live in Australia with my close family and many friends. I was born in Sydney and go there often to visit relatives and enjoy a bigger city and the beautiful beaches. Where I live is more quiet and I enjoy spending time with my friends and playing sport.

I am really interested in Swedish culture, the way of living and thinking, the nature, landscape and climate. But I also want to share how I think and live, as well and my experiences and culture. For example, I like a healthy routine and structure. I enjoy cooking meals for my family like spaghetti bolognese and burritos. I like exercising, listening to music and time to read books when I am relaxed. I really enjoy being social and am keen to make friends and experience how Swedish people hang out together.

I have played basketball for over 6 years. I started at a young age and progressed quickly to playing very high level basketball representing my state and playing for Sydney Basketball Institute. I love sports staying fit and healthy, having a routine that benefits me in the long run and to keep structure in my life. Some of my other interests are making my own clothes and photography these are two subjects I do at school and enjoy. I make clothes outside of school for my brand. I like to have fun with my friends and being outside in nature and exploring.

I would love to explore hiking, snow sports and the wilderness in Sweden, as well city life and traditional life.

Warm regards,

Royle
