

"Dennis is a motivated student; he is very interested in having an experience abroad to broaden his cultural horizonz."

Lär känna Dennis

Dennis är född 2009 och kommer från Italien. Han kommer i augusti 2026 och stannar under ett läsår. Intressen är bl. a utomhusaktiviteter (medlem i scouterna sedan 2018), musik (spelar cello i skolorkestern), skateboard (free style) och matlagning.

Dear Host Family, Did your day go well? I hope so. My name is Dennis, and I'm writing to you from Italy. I'm very excited to tell you a little about myself and why I want to become an exchange student in Sweden.

I have a great passion for art and all kinds of music, from classical to modern. Speaking of music, I play the cello. I take lessons at my city's music school and am also a member of the student orchestra. Which kind of music do you like the most? In fact I hope I could continue playing the cello during my exchange-student year too. Do you think it could be possible? I also love cooking and I'm quite good at it, especially Italian dishes, of course! Do you like pizza? But also oriental food like curry and rice. I'd love to share some of my favourite recipes with you. In addition to these interests, I'm a scout and scouting is becoming a great passion. Since 2018, scouting activities have allowed me to collect so many wonderful memories. I enjoy hiking in the mountains, walking in nature, and building beautiful fires. In the future, I'd like to become a scout leader so other young people can have an experience as wonderful as mine. In Sweden do you have some scout groups? If yes, then I'd definitely like to take part at one of them. Finally, I also enjoy freestyle scootering and train at the local skatepark. I'm not very good at it, but I have a lot of fun, and I think that's the most important thing!

My family consists of me, my brother, my mom, and my dad. I've spent so many wonderful moments with them, from vacations to the simple daily routine: waking up and getting ready in the morning, lunch after school, and then dinner after returning from afternoon activities. We share these moments every day, sharing our experiences from the day just gone by and our plans for the next. That's a beautiful family tradition that we invented and is very useful and important to me. At school, my favourite subjects are Italian and philosophy, although I find science very interesting, in fact I attend my city's scientific high school. I also spend a lot of time with my friends, creating wonderful memories. Between school, activities, and just hanging out, I've made some very important friendships that I hope will last a long time. Of course, I hope to make new ones during my experience in Sweden. I decided to become an exchange student because I love learning about new and different cultures, and I believe this could be a fantastic experience that will allow me to grow as a person. I chose Sweden because I've already been there twice on vacation and loved both the people and the landscape. I've traveled to this beautiful country twice, and now I'd like to try living there to experience the culture and everyday life. Maybe in the future I could live there if I'd like to.

I thank you in advance for the fantastic experience you will offer me (hoping you will offer it to me). A lot of beautiful things

Dennis
