Hej värdfamilj,

Tack för att ni tar tid att läsa mitt brev!

Jag heter Elodie, jag är femton år gammal och jag kommer från Tyskland.

I am very excited about the possibility of spending time in Sweden and becoming part of your family. I would love to share a bit about myself so that you can get to know me better.

I live with my parents and my sister, who is two years older than me, in a house in a neighborhood of a big city. I find it very practical that our house is located near public transportation and I often bike so I can almost go everywhere on my own :). We are a close family who enjoy spending time together, especially during dinner or when we go camping. I think I have a very good relationship with my parents, and my sister and I get along very well and almost never argue. My family also includes my mother's parents and my dad's mother, who live relatively close to us. On one side I really enjoy it because we can see them often, but I would lie if I didn't say that on the other side it can also be a bit exhausting. I also have three cousins who are similar in age to me, but unfortunately, we rarely see them because two of them live in the US, and the other one is not that interested in family.

I'm lucky to have a nice group of friends in my class. We often spend time together after school or on weekends. We go to the city, have sleepovers, watch movies or just talk and laugh for hours about everything and nothing. Every year in summer holidays we travel with a youth group which is always very fun.

I also have a friend group outside of school which I have known since birth. They are the kids of my mother's friends' group - one boy is my age and two girls, also sisters, are my sister's and my age. When we meet, we often bake something, play board and video games (like "Just dance" "Mario Party" "Mario Kart") or have sleepovers as well. During one long weekend per year, we go camping with our families or on vacation together.

My friends are very important to me because they always make me laugh and are there when I need support. I hope to make new friends in Sweden:)

One of my biggest hobbies is dancing, whether it is just for fun at home or in the dance studio. For the past two years, I have been going to one-hour hip hop lessons several times a week with one of my closest friends. I also recently started taking ballet lessons. I love music and sport and when I dance, I can let out my emotions and feel free. I also love the feeling of dancing in a group, and I especially enjoy the mix of discipline, listening to the music and remembering the moves of the choreography.

I cause I like being creative, and I enjoy logical exercises and team activities with my classmates.

I sometimes find writing texts a bit challenging, but I try to do my best. Another hobby of mine is baking like pancakes or waffles for breakfast or cakes which I like to decorate but also just for fun for/with friends and family.

During the winter holidays I enjoy skiing with my family.

I Although I want to continue a few of my hobbies in Sweden, if possible, I am open to trying new activities and maybe even learning something typically Swedish as well. I appreciate that you're open to welcoming an exchange student into your home. Thank you so much. I am really looking forward to meeting you and becoming part of your family!

Warm regards,

Elodie
