

**"Miroslav's strong sense of responsibility, excellent communication skills, and politeness make him a valued member of our school community."**

## Lär känna Miroslav

Miroslav är född 2010 och kommer från Slovakien. Han kommer i augusti 2026 och stannar under ett läsår. Intressen är bl. a innebandy, fotboll och utomhusaktiviteter. Miroslav placeras helst i södra Sverige.

Dear Host Family!

I am very excited to introduce myself to you. My name is Miroslav, and I am 15 years old. I am an optimistic boy, an excellent student, and a floorball player. I am currently 166 cm tall, have short blond hair, blue eyes, and I always wear a smile on my face. I am kind, honest, polite, and friendly. I want to challenge myself by studying a foreign language, and I hope to step out of my comfort zone to become more confident and responsible. If you choose me, I can assure you that you won't regret it.

I live in a city, in a house with my parents. My dad is 48 years old and my mum is 47 years old. My parents both work as lawyers. They are strict but caring, and they often go cycling together. My sister is 3 years younger than I am, and she is a basketball player. She is in the same school as me. We also have a dog. His name is Benny, and he is a beagle. On weekends, we often go cycling with our parents. During winter, we go to our cottage in a village. There we ski, snowboard, and go for a walk with Benny. During the spring holidays, we always go to the Austrian Alps or the Italian Dolomites to ski. We always have a family dinner with my grandma, aunt, and cousin on weekends because we live nearby. I have a great relationship with everyone.

I attend an 8 year-attendance grammar school focused on Math. I am currently Quinta. As an exemplary student, helpful friend, and reliable person, I have been selected as a cash-keeper multiple years in a row. I like subjects IT and PE, but my favourite is Maths. I love it because I don't have to study too much, as these subjects are logical and there are only a few things that require to be memorized. I have won several mathematical competitions. Also, I started doing DofE (Duke of Edinburgh). It's a program for youth to develop skills and to volunteer in different communities. Currently, I am doing the silver level of it. I am volunteering second year in a nursing home. There I am talking with old people, going with them in the park, and participating in activities with them. I think I will be successful in life because of my critical and logical thinking. I want to work in a mathematical area, but I receive great results in all subjects, so I am still considering other possibilities. Being in a different environment would help me figure out who I am and what I want to do later in life. I would love to attend a great university or college in the future. But the most important thing for me is to be a kind, respectful, and happy person.

I am mainly interested in floorball, which I have been playing for 5 years. I have training sessions on Mondays, Wednesdays, and Fridays, followed by matches every other weekend. Additionally, I take two extra English classes each week. I enjoy playing chess in my free time.

Outside of school in Sweden, I would like to get to know you better, my host family, try activities you enjoy, and join a club or sport (preferably floorball), where I could meet more people and get better at it. I like to be surrounded by positive people. I love laughing. I play football with my friend every day after school and have a lot of fun. On Fridays, we go to a hockey match and cheer for our club; we are great fans. In summer, we often visit each other and play volleyball, football, or we hike to our local hill to see great views of our city. We use every opportunity to have a fun time.

Having a good time at home goes hand in hand with having responsibilities. I must keep my room clean and make my bed. During weekends me my mom and sister clean the whole house. I always do the bathrooms and toilets. I sometimes make dinner with my sister for our family, and it's really good.

The city where I live is a charming city that has many attractions. We are known for a church from the 11th century, and we are also one of the oldest cities in Slovakia. But I think that the most interesting thing is that we lie on 7 hills like Rome in Italy.

I would love to experience your culture and introduce my Slovak culture to you. I am looking forward to meeting you, getting to know you better, my future host siblings, and your life. I am curious and take my studies seriously. I want to learn about the world from a different perspective. I obey my parents, and I will follow your rules. I am a tidy person, and you won't have any problems with me. I am mature, talkative, and I would love to be your host son. Thank you so much for considering me.

Yours, Miro
