## Lär känna Anja

2026 och stannar under ett läsår. Intressen är bl.a böcker, musik och skidåkning.

Dear host family,

My name is Anja, I am 15 years old and live in Switzerland. Since I was about 8 years old, I wanted to do an exchange year. My mother, who studied abroad in America when she was 17 years old, told me that an exchange year is a great opportunity for young students. Ever since, I have dreamed of studying abroad. I chose Sweden, because I lived there when I was very young. While living there, I was able to speak Swedish fluently, but unfortunately, I forgot nearly everything. I hope now I will be able to learn more about Swedish traditions and everyday life there from another perspective.

Currently, I am in 9th grade at an academic high school. My favourite subjects are English, history and biology. When transferring from high school to an academic high school, we had to select a primary subject. I chose the subject PPP, which stands for: Psychology, Pedagogy and Philosophy. In the future, I hope to find a job that involves a part of this subject.

I look forward to getting to know you and learn about your traditions and the daily life. I also can't wait to share more of my traditions with you and build a strong and lasting relationship.

Thank you for reading my letter

Med vänliga hälsningar, Anja
