

"Jonas has a good ability to work in groups and no problems with peers relations."

Lär känna Jonas

Jonas är född 2008 och kommer från Frankrike. Han kommer i augusti 2026 och stannar under ett läsår. Intressen är bl. a handboll, surfing och volleyboll.

Dear Host Family,

Hej ,my name is Jonas I am 17years old and I leave in the West side of French. I have one big sister Méryl she is 20 years old and she lives in Paris. My parents are separated, Emmanuelle is my mom and she is 48 years old and my dad Bernard he is 53 years old. My bestfriends are Clément, Mahaut, Esteban and Raphaël. I have know Clement and Mahaut for three years and we met in high school. Clément is 18 years old he is one year older than me and Mahaut is 17 years old she is the same age as me. I have know Esteban and Raphaël since i was 3 years old. Esteban is 16 years old he is one year youger than me and Raphaël is 17 years old we have the same age. We were in the same primary school and the same middle school, but we are not in the same high school because I went to study far from our city.

This year I am playing volleyball but before that I played handball during 8 years and drums during 6 years. I leave near the sea and I learned to surf and now I continue to surf when there are waves. I study in High school. My favorite school subjects is biologie and mathematics. After high school and after the year in Sweden I want to study psychology to help people who need it. I want to travel in the World too. Discover the wonders of the world like in Peru.

With my family we have travel a lot in the world in New York, Canada, Denmark, Norway, Sweden, Germany, Spain, Portugal, Scotland, Netherlands. My favorite trip is Sweden, there I camped in a van and a tent all along the Bohuslän Coast. For my Sweden is an incredible contry with wonderful landscape and people that's why I want to spend a year there. In Sweden i want to learn your language your traditions your food and what is a teenage life in your contry. I want to try your sport and discover your way of life. I hope that this year in Sweden will allow me to speak and understand English really well and why not speak or understand your language but also learn new things. I think a typical day in Sweden looks like the morning: we get up, get ready, and then go to school. We eat at 1 p.m, then at 3 p.m we leave class and go out with our friends, do sports, or do our homework. Then we go home and eat at 8 p.m.

Thank you for reading my letter. Hej da!

Jonas
