

"Azzurra is both well-liked and respected by her classmates. She demonstrates exceptionally academic ability across all subjects."

Lär känna Azzurra

Azzurra är född 2009 och kommer från Italien. Hon kommer i augusti 2026 och stannar under ett läsår . Intressen är bl. a musik, volleyboll och videospel och bakning.

Dear host family,

it's a pleasure to meet you. My name is Azzurra, I'm 16 and I'm from Italy.

I'm really shy at first, especially when I'm talking to extroverted people, but when I notice someone who's alone or struggles to talk to people I always step up and talk to them.

I'm kind, funny and hard-working, when they give me a job to do, whether it's schoolwork, house chores or helping my parents with their job I always do my best to get it done in the most efficient way possible.

I think one of my best qualities is being caring. I always worry about the people I love and being able to help them when they need it makes me happy.

I live with my parents in a small town. I have an older sister but she doesn't live with us anymore because she's studying in another city. I have four pets: three cats and a dog.

My hometown doesn't really have any attractions and it's pretty boring, so when I hang out with my friends we usually take the bus and go to the nearest city. We take walks, go into shops and eat together; but when we do stay in our hometown we usually go to the park or we eat ice cream to pass the time.

I don't really love going out of the house, I'd rather stay home and read a book, play the guitar, play videogames and watch movies.

My school is in another town, so every day I take the bus to go and to get back. I study in a linguistic school so I study French, Spanish and English besides all the other subjects you study in every school.

I chose this school because I've always liked foreign languages. It all started from my sister listening to English music and me loving it as well.

My favourite subject is English, because I love studying it and it comes natural to me.

I do well in every subject because I care a lot about my grades, so if there are subjects that are more difficult I commit more to them and study harder.

When I get home from school sometimes my parents are still at work, that's why I had to learn how to cook in middle school.

I actually really like cooking and baking. I think it's relaxing and it gives you a lot of satisfaction when other people like what you cook.

I love travelling, but I never get the chance to go outside of Italy, that's why I chose to study abroad for a year. I chose Sweden because I think it's one of the most amazing countries in Europe; it has beautiful sights and amazing music. I also really like the language, even if I know just a few words.

During my exchange year I hope I'll learn Swedish, make new friends, learn new things and try new food.

I hope my host family will accept me as I am and we will create new memories together.

Thank you for reading my letter.

Best regards,

Azzurra
